CERTIFICATE OF MAILING

I hereby certify that this correspondence and all marked attachments are being deposited with the United States Postal Service as first-class mail in an envelope addressed to: Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313-1450, on

2/28/07

(Date)

Josue A. Villalta Reg. No. 54,511

Mail Stop Amendment
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

Enclosed for filing in the above-identified application is an Information Disclosure Statement by Applicants (PTO/SB/08 equivalent) listing 267 references to be considered by the Examiner. Also enclosed are 69 foreign patent references and/or non-patent literature as listed on the Information Disclosure Statement.

Reference numbers 183-198 identify several co-pending applications assigned to the assignee of this application. Applicants direct the Examiner to these applications to consider whether the subject matter claimed, now or as may be amended in the future, as well as the associated prosecution history, now or in the future, may be relevant to the patentability of the present application (e.g., for reasons of obviousness-type double patenting). Applicants believe that the Examiner has access to the applications and associated file histories through the Patent Office (e.g., the IFW system). Accordingly, Applicants have not provided copies of these applications or their associated file histories, but would be happy to do so, now or in the future,

03/06/2007 AWONDAF1 00000049 111410 10650736

Appl. No. : 10/689,487
Filed : October 20, 2003

Docket No. ENDIUS.26CP1C2
Customer No. 20,995

should the Examiner so request. Copies of the references are not submitted pursuant to 37 C.F.R. § 1.98(d).

Applicants note that many references listed in the Information Disclosure Statement were cited in U.S. Application Serial No. 10/734,161 ("the '161 application"), filed December 15, 2003. The Applicants of the '161 application have requested that the United States Patent and Trademark Office ("USPTO") declare an interference between the '161 application and U.S. Patent Nos. 6,530,926 and 7,056,321, which are parent cases of the above-identified application. The Applicants of the '161 application have also requested that the proposed interference include the above-identified application. The '161 application and the Request for Declaration of Interference are cited on the enclosed Information Disclosure Statement as Reference Nos. 182 and 265.

Notwithstanding the length of the list of references submitted, the Applicants respectfully submit that they are not attempting to cloak any particular reference(s), and the submission of the references is made solely in an attempt to comply with the duty of candor and to place before the examining office all references that may be considered material by an Examiner. The length of the Statement is due in part to Applicants' desire to cite all art that was made of record by the party in the '161 application, who is seeking to provoke an interference with parent cases of the present application.

Nevertheless, in an attempt to facilitate the examining process, the Applicants would like to call the Examiner's attention to the following references: U.S. Patent No. 6,187,000, U.S. Patent No. 5,171,279, U.S. Patent No. 6,306,170, European Publication No. EP 0 807 415 and Australian Publication No. AU 13672/95. However, Applicants do not warrant that there are not references that are contained within the Information Disclosure Statements that are more relevant, for Applicants have not conducted an analysis to determine the relative import of the various references.

This Information Disclosure Statement is being filed before the mailing date of a final action and before the mailing of a Notice of Allowance. This Statement is accompanied by the fees set forth in 37 C.F.R. § 1.17(p).

The Commissioner is hereby authorized to charge any additional fees which may be required or to credit any overpayment to Account No. 11-1410.
